CLIP RAIL

Architects and designers appreciate the versatility of CLIP RAIL, which is equally beautiful with glass or metal inserts.

CLIP RAIL Versatility and sleekness are the best way to describe our new CLIP RAIL™ system. This innovative modular system allows for designers to create in metal or glass, knowing CLIP RAIL will be structurally sound and spectacular looking. This is another Tuttle innovation that is suitable for a variety of buildings, easy to spec and just as easy to install. CLIP RAIL sets the tone for an elegant structure.
